Dear Dr. Vardy,

I received and viewed the DVD of your mother's account of Auschwitz and after. It is a very powerful document, and a testament to your mother's courage in facing those terrible memories, as she must have in every recounting of her story. But it is only with such personal accounts that the true horrors of the period are revealed.

I have passed the film on to other members of the department, and I am sure it will become an important resource in our treatment of the Holocaust.

Sincerely,
