Dear Iris -

I'm so proud of you - it is a wonderful way to start the swim into the ocean of orthodontics. You will have no problem in staying afloat. I am happy to hear that you are keeping up with your education - I'm still learning - I guess you never stop the pursuit.

Keep up the effort and success is sure to follow - you certainly have a bright future.

You have also carried the banner high for NYU and this also is to be recognized and applauded.

You are OK!

Professionally -

Marty Epstein
